How do I calculate my taxes?

You need your new revaluation assessment.	Example:	$280,000
Deduct the 14% homestead exemption		- 39,200
		240,800
Multiply by the proposed tax rate 22.30 per thousand (.2230)		x .2230
		$5,369.84

Where do I get my assessment?

You should have received a letter from Certified Revaluation Company several weeks ago. You can also check your assessment on their website: http://www.crcpropertyinfo.com/crcdb/westgreenwich.htm

If you met with them for an informal hearing, your assessment may have changed. You should have received a second letter informing you of any change and the updated assessments are posted on their website.

If you have additional questions, please call the assessor's office at 392-3800 x. 104.
